CLARK + JENNY · WILLIAMSBURG, MICHIGAN · 9 NOVEMBER 2026 (EST)

10746 E Deal Rd

Concept pack v4.5 — compass corrected. The East Deck faces east, toward Elk Lake. Garage doors face west, toward Deal Rd. Not a survey, appraisal, or construction drawing.

Listing photo 01 — the East Deck (back / east, toward Elk Lake) and the walk-out slope. The gray barn at left sits south of this facade.

What this pack is

A household design study of the listing house and two barns: floorplans and a 3D model rebuilt from listing room sizes, 37 listing photos, and the 8 November 2026 walkaround videos, plus proposed Florida furniture, a 4-person wood-fired sauna, primary paint and bath options, and a 4-station CrossFit barn. Reno estimates stay under $100,000 and assume no flooring changes.

The v4.5 compass correction

Earlier drafts labeled the large lake-view deck “north” and the garage “south.” Clark’s correction, confirmed against the videos and the fact that Elk Lake lies east of the property: the **East Deck faces east**, on the opposite side of the house from the garage doors. **Garage doors face west** (front / Deal Rd). Interior room-to-room topology did not change; the whole plan was rotated 90° clockwise.

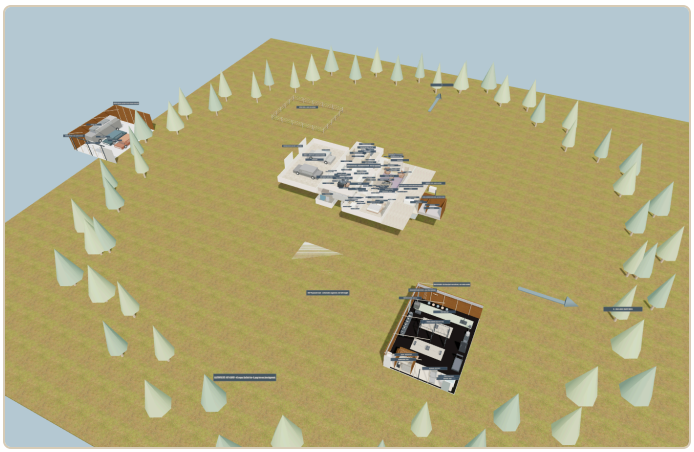

Asking price and listing facts are from MLS 1952304 as publicly marketed. Private offer terms, seller identity, and household finances are intentionally omitted.

Orientation, re-derived

Anchor (owner, 9 Nov 2026, evening ET): “The East Deck is the deck facing east, on the opposite side of the house from where you see the garage doors.” Garage doors face west / the front side.

East Deck and walk-out — listing 01. Same view: IMG_5199 ~0:30, IMG_5198 ~0:30 from on the deck.

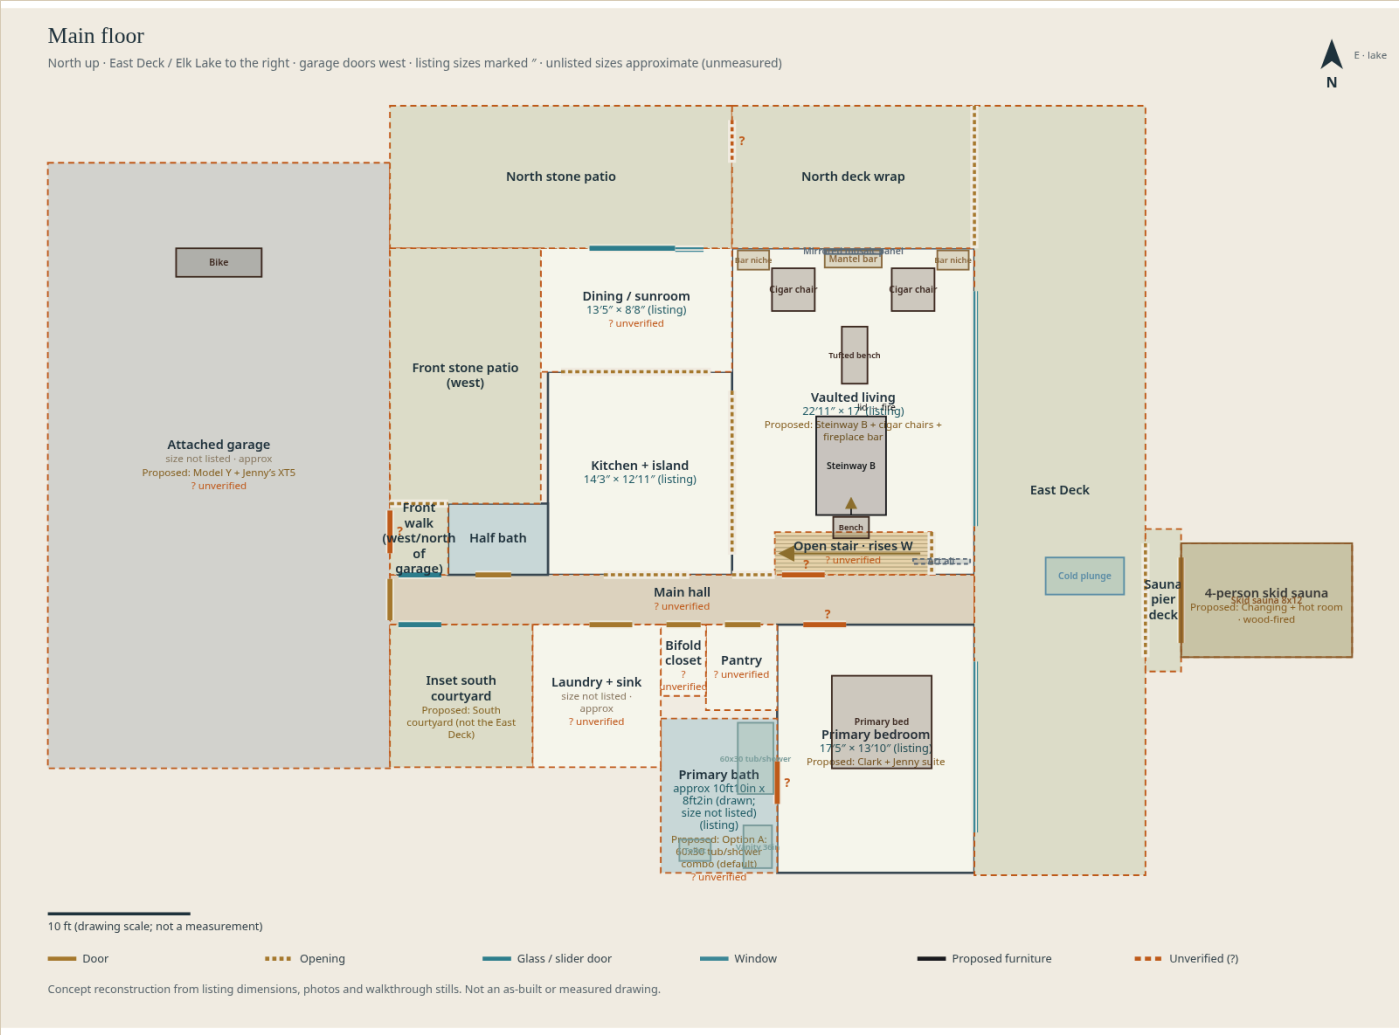

v4.5 site model (illustrative, not a survey). East / Elk Lake to the right; garage and Deal Rd to the west; gym barn SE; front barn WNW.

FACT	EVIDENCE	CONFIDENCE
Elk Lake / East Deck face east	Property is west of Elk Lake. Photos 02, 24 (lake from the deck side). Photos 01, 23, 34 and IMG_5198 ~0:30 (the large wrap deck). Owner anchor.	High
Garage doors face west	IMG_5199 ~6:30 (390s): two white overhead doors face the asphalt driveway, stone patio to the north of the doors. Opposite the East Deck.	High
West / front patio	Photo 33 (dining slider, stone patio, utility boxes). IMG_5199 5:30–6:30 walks this corner to the garage doors.	High
Inset south courtyard is not the East Deck	IMG_5199 ~6:00 (360s): recessed lattice deck at the T’s south door, shortly before the parking pad. Three-sided enclosure per owner (compass corrected).	Medium-high
Primary is south of living	Same interior topology as before; only the compass rotated. Primary windows face east, toward the East Deck.	High (topology)

Earlier “lakes are north / primary east of living” labels were a compass error, not a change in how the rooms connect.

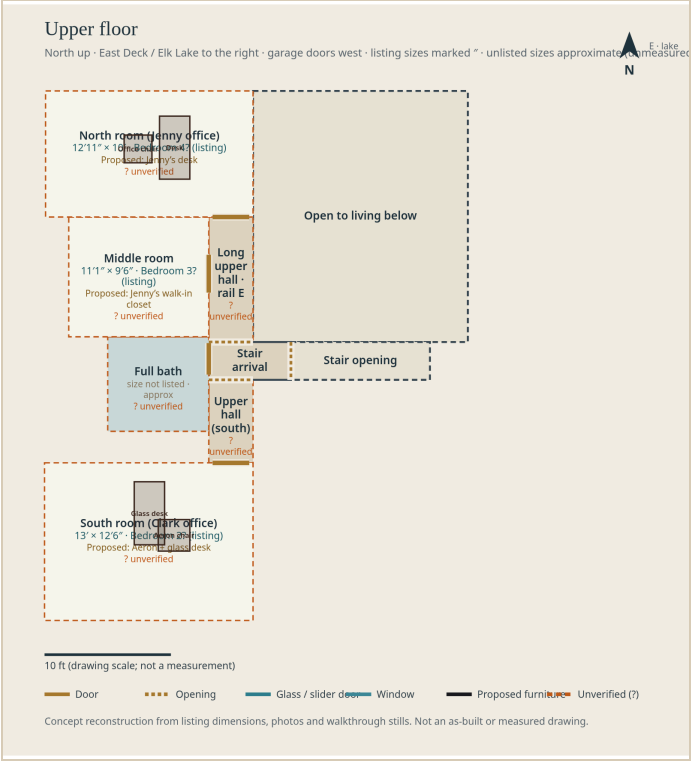

Main floor

North is up. East (right) is the East Deck / Elk Lake. Garage is on the left (west); overhead doors face west. Living east glass is windows only — no door onto the deck. Fireplace on the north wall; Steinway B by the stair on the south, lid toward the fire. Primary bedroom south of living. Sauna and cold plunge sit on / just east of the East Deck.

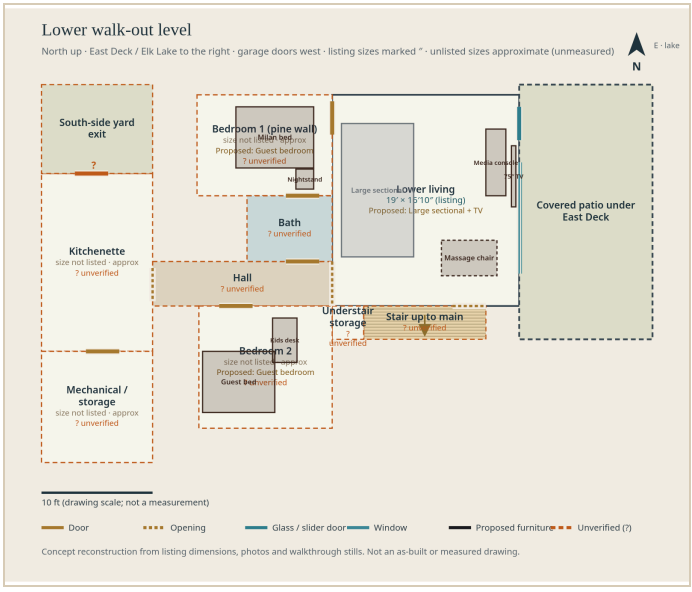

Listing dimensions shown where the listing gives them; every other size is approximate. Orange dashed items are unverified.

Upper and lower floors

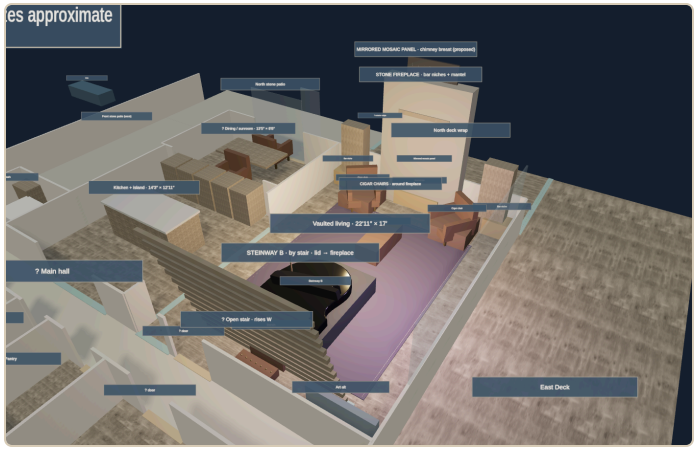

Upper: north room (Jenny's office) and south room (Clark's office) have end-wall doors. Hall rail faces east over the living void. Not drawn over the primary (what sits above the primary is unverified).

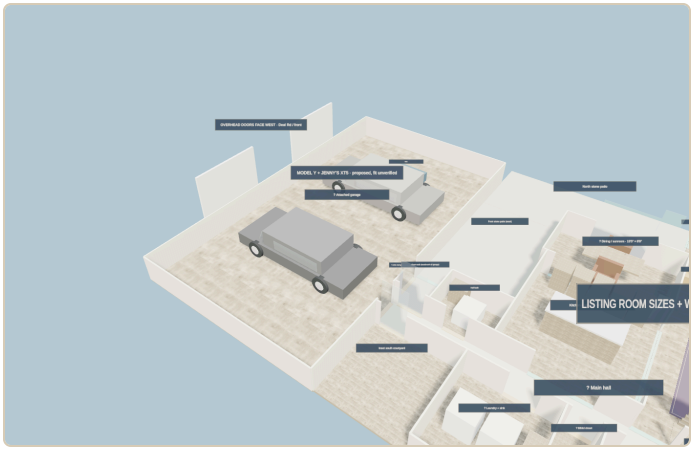

Lower walk-out: sectional in living, facing east windows / the covered patio under the East Deck. Second exterior exit is on the south side.

3D model — site, living, garage

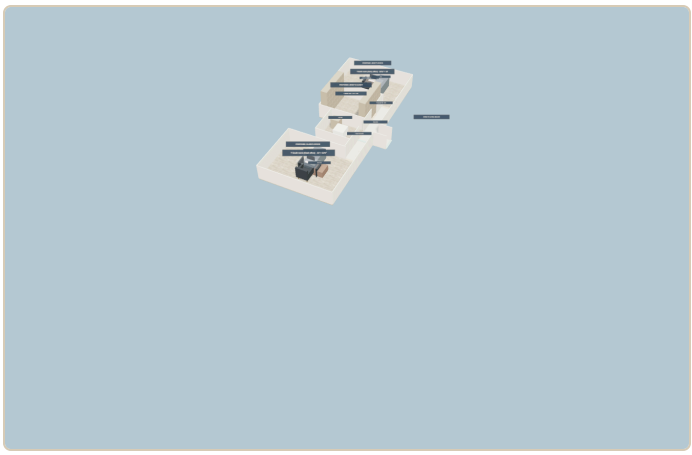

Living: fireplace north, piano south by the stair, lid toward the fire; cigar chairs and mantel bar.

Attached garage on the west. Overhead doors face west, toward Deal Rd — opposite the East Deck (IMG_5199 ~6:30).

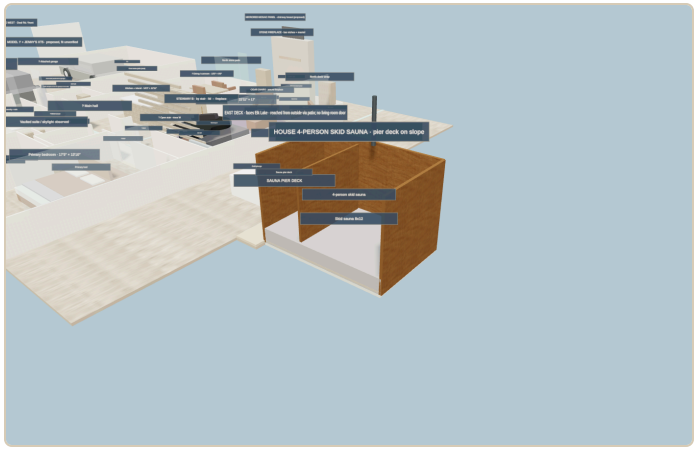

Main level looking across living, primary (south), and the East Deck (right).

Upper offices and closet row, rail on the east over the living void.

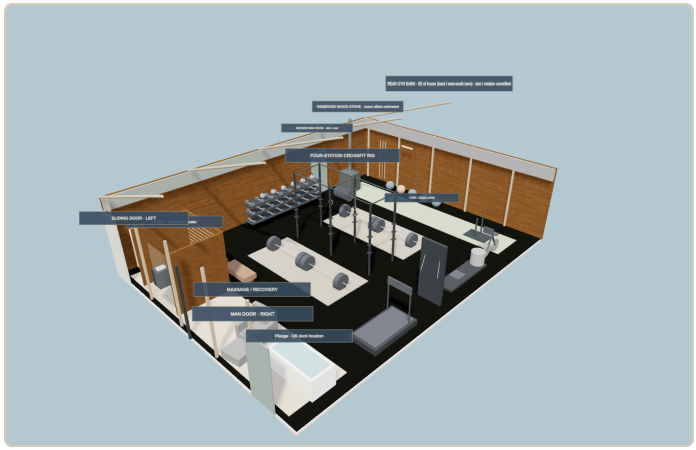

East Deck, sauna, and gym barn

4-person 8×12 skid sauna on a pier just east of the East Deck, over the back slope. Changing room west, hot room and picture windows east, stove/chimney south, clear of eaves.

After mockup (concept only) from listing photo 01: cedar sauna at the east end of the East Deck / slope. Not as-built. The previous mockup, which sat the sauna on the front/west courtyard, was replaced.

Rear gym barn, SE of the house on the back / east-south lawn (photo 01, IMG_5199 ~0:30). 4 stations; ~9′6″ ceiling — no rope climb by default.

After mockup: insulated / plywood CrossFit box using existing gear. Rubber floor in the barn only.

Before / after — primary bedroom and bath

Paint and bath work only; no flooring changes. Bath size is not listed — plans assume about 10.8 × 8.2 ft. Option A (60×30 tub/shower combo) fits. Option B (soak + separate shower) is marginal; the path to the shower/drain is narrow and should be measured on site.

After, Palette A — warm greige (Benjamin Moore Edgecomb Gray or similar) and Simply White trim.

After, Palette B — soft sage (October Mist or similar) and White Dove trim.

After, Bath Option A — 60×30 tub/shower combo, 36 in vanity, toilet. Verdict: FITS in the assumed footprint.

After, Bath Option B — soaking tub + separate shower. Verdict: MARGINAL. Prefer only if the bath measures at least ~10.5 × 8 ft.

After views omit seller furniture. These are concept illustrations, not a contractor bid or a measured survey of the bath.

Furniture placement (Florida household)

Proposed footprints only. Piano is about 6′11″ × 4′11″ plus lid and bench clearance; mover path is unverified.

ITEM	WHERE	NOTES
Steinway B	Living, by the stair (south), across from the fireplace	Lid toward the fire (north wall). Bench toward the stair.
Cigar chairs + tufted bench	Around the fireplace	
Bar setup	Fireplace built-ins (sides + mantel)	
Mirrored mosaic panel (~4 ft)	Chimney breast above the mantel (preferred)	Alt: living SE wall, east of the stair.
Large sectional	Lower living	Faces east windows / TV. Exact dims not logged.
Aeron + glass desk	Upper south room (Clark’s office)	End-wall door.
Jenny’s desk	Upper north room	End-wall door.
Beds	Primary, lower bedrooms	
Cold plunge	East Deck, by the sauna pier	Proposed. Confirm a 220V circuit at this deck.
Bikes	Garage or front barn	
Gym gear (Peloton, rack, rower, etc.)	Rear SE barn	Four stations; no rope climb at ~9′6″.
Airstream 24X, Mustang	Front barn (WNW, nearer Deal Rd)	Barn position diagrammatic.

Sauna, gym, and reno budget (estimates)

4-person wood-fired skid sauna

8×12, scaled from the 9×16 / 8–10 person reference (2x6 Rockwool, 2.5:12 shed, board and batten, changing + hot room, stove fired from outside, PT skids, tempered picture windows). Primary site: pier just east of the East Deck on the back slope, if frost/piers allow. Stove on the south wall; chimney clear of eaves. Alt: north wrap of the East Deck, or a pad by the SE gym barn.

CrossFit barn

Rear SE pole barn, modeled 30×40 (MLS may be 35×40), ceiling ~9′6″. Insulate + plywood, rubber floor (barn only), mini-split, lighting, airflow via existing doors. Four stations using existing gear. No rope climb at this ceiling height; wall-ball to ~9 ft.

Reno budget — Northern Michigan ballpark, Nov 2026, ESTIMATES only, not bids. No flooring changes. High total capped at $100,000.

ITEM	LOW	HIGH
Primary bedroom paint refresh	$800	$2,000
Primary bath refresh (vanity, fixtures, lighting, mirror)	$4,000	$9,000
Primary tub/shower upgrade (Option A or B)	$3,500	$10,000
Powder / other bath small updates	$1,500	$4,000
4-person wood-fired skid sauna (materials + labor)	$12,000	$22,000
Sauna pier deck / slope platform	$4,000	$9,000
Gym barn: insulated walls + plywood lining	$8,000	$15,000
Gym barn: rubber flooring	$3,000	$6,000
Gym barn: mini-split heat/cool	$4,000	$8,000
Gym barn: lighting + electrical upgrades	$2,500	$4,500
Gym: 4-station rig / pull-up / platforms / wall-ball	$1,500	$4,000
Contingency (~10%)	$4,500	$6,500
TOTAL	**$49,300**	**$100,000**

Self-consistency notes and remaining uncertainty

- **Front barn position is the weakest site placement** — shown WNW, nearer Deal Rd, as an inference from circulation; not tightly pinned by one video frame. Distances are diagrammatic, not surveyed.
- Gym barn SE quadrant is supported by photo 01 and IMG_5199 ~0:30, but exact offset, rotation, and 30×40 vs 35×40 remain unresolved. Which barn has the 12 ft vs 9′6″ ceiling is an assumption.
- What sits above the primary bedroom, and the exact upper west overhang, are still unverified.
- Unlisted room sizes (bath, hall, laundry, garage width) are approximate. Option B in the primary bath may not fit.
- Sauna pier / frost / stove / snow-load clearances on the east slope need a qualified look. 220V at the East Deck is not confirmed.
- Piano mover path, garage clear width, wood foundation, drainage, radon, shared-driveway rights, and barn-parcel boundaries are outside this drawing.

Listing highlights (public MLS 1952304)

4.23-acre marketed house parcel (the original combined acreage is a separate legal question). 1993 contemporary, Elk Rapids Schools. Advertised 3,120 sq ft; earlier research 1,956 above / 1,164 finished walk-out. Six bedrooms / 3.5 baths in remarks (structured fields conflict). Elk Lake views, not waterfront. Two pole buildings. Seller-claimed updates (roof, appliances, boiler, water heater, paved drive) are seller statements, not an inspection.

v4.5 · 9 November 2026, America/New_York (EST). Sources: MLS 1952304 listing photos 01–37; walkthrough videos IMG_5195–5200 (8 Nov 2026); owner compass correction (9 Nov). This is a design study for the household. Not an as-built, survey, structural design, permit set, or certification of floor area or clearances. Private offer terms are not included.
