

PAINT CONCEPT · WILLIAMSBURG, MICHIGAN

10746 E Deal Road

Whitewater Township · Grand Traverse County · Elk Lake views

> A whole-house paint concept for 10746 E Deal Road, across all three levels. Inside, the walls are Sherwin-Williams Shoji White, the trim, doors, railings, and wall paneling are Alabaster, and the kitchen and bath cabinets are Benjamin Moore Edgecomb Gray. Natural wood ceilings and beams stay as they are. Outside, a country-modern scheme: Alabaster siding, Tricorn Black trim, Iron Ore railings, and three roof options — keep the existing shingles, new charcoal architectural shingles, or a high-end dark standing-seam metal roof. The two pole barns are shown in the same light-body, black-trim scheme. Every photo below opens on the new colors. Drag any photo to see the original listing shot. These are visualizations, not a contractor proposal.

The house

BEDS / BATHS	FINISHED AREA
6 / 3.1	3,120 sf

LOT	YEAR BUILT
9.35 acres	1993

ADDRESS	TOWNSHIP	STYLE
10746 E Deal Rd, Williamsburg, MI 49690	Whitewater Township, Grand Traverse County	2-story contemporary with a finished walkout

ABOVE / BELOW GRADE	LOT	GARAGE
1,956 sf above + 1,164 sf finished lower level	9.35 acres, rolling and wooded, with Elk Lake views	Attached, about 2.5 cars

OUTBUILDINGS	EXTERIOR	HEAT / COOLING
Two pole barns, 30×40 and 35×40, plus a smaller yard	Vinyl siding, asphalt roof (replaced in 2019 on the	Natural gas hydronic / baseboard, wood fireplace,

shed

house and one barn)

ductless A/C

WATER / SEWER

Private well and septic

LEVELS IN THIS CONCEPT

Main, upper, and lower walkout — all painted in the same palette

Open the main property concept page

Interior color palette

One wall color throughout the house, including bedrooms, bathrooms, halls, the upper loft walk, and the lower walkout. Wood ceilings and structural beams are left natural. Floors, counters, appliances, fixtures, furniture, windows, and fireplace stone stay as they are.

Shoji White

Sherwin-Williams SW 7042

Walls in every room, on all three levels. A soft, light warm off-white that reads brighter than beige without going stark.

Approx. hex #E6DFD3 · Eggshell or matte on walls

Alabaster

Sherwin-Williams SW 7008

Trim, baseboards, door casings, interior doors, stair and loft railings, and wood wall tongue-and-groove or paneling. Not the ceiling boards or structural beams.

Approx. hex #EDEAE0 · Semi-gloss on trim and doors

Edgecomb Gray

Benjamin Moore HC-173

Main kitchen cabinets and island, laundry cabinets, bathroom vanities and linen cabinets, and the lower-level kitchen cabinet. Countertops stay as they are.

Approx. hex #D9D3C4 · Satin urethane enamel

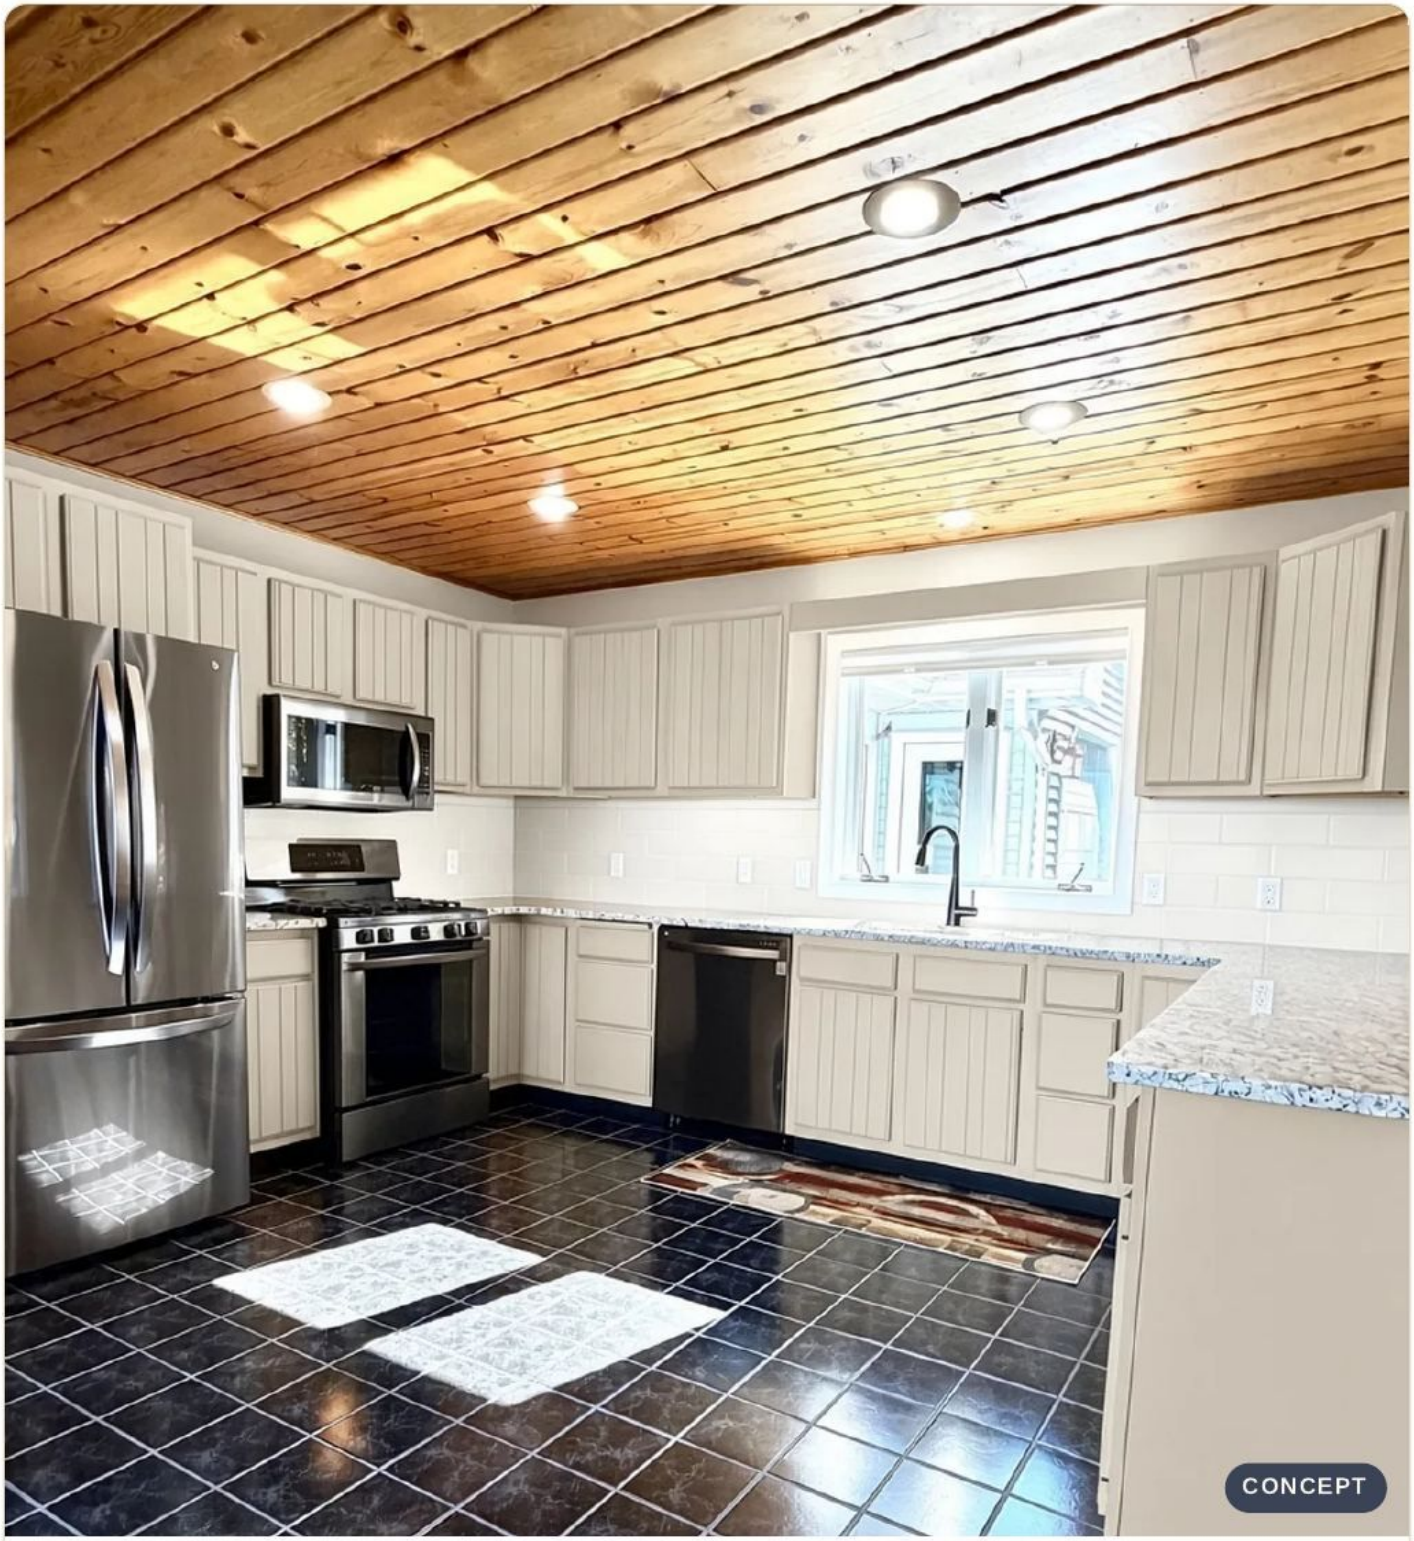

What stays untouched inside

All natural wood tongue-and-groove ceilings and structural beams remain the existing honey wood. Already-white drywall, popcorn, and drop ceilings stay white. Hardwood, carpet, and tile floors, granite counters, tile backsplashes, appliances, fixtures, furniture, window glass and views, and the stone fireplace are unchanged.

Interior concept

Each photo shows the new colors. Drag any photo to the right to see the original listing photo.

Main kitchen

Main kitchen

Kitchen sink and backsplash

Dining area

The sloped wood wall paneling is painted Alabaster. The honey wood ceiling boards stay natural.

Dining area

Main living room

Gray-taupe walls go to Shoji White. The wood stair railings and the wood wall paneling beside the fireplace are Alabaster. The stone fireplace and the white ceiling stay as they are.

Living room, looking toward the view

Living room and fireplace

Fireplace close-up

Primary bedroom

The salmon walls go to Shoji White. The wood wall paneling and door are Alabaster. The wood ceiling, skylight, and beam stay natural.

Primary bedroom

Primary bath

Primary bath vanity

Primary bath shower

Main-floor laundry

Laundry

Upper level

The wood-paneled loft walk, doors, trim, and railing are Alabaster. The blue living-room vault visible from the loft, and the bedroom walls, are Shoji White.

Upper hall and loft railing

Upper bedroom

Upper bedroom with paneled closet

Main-floor powder room

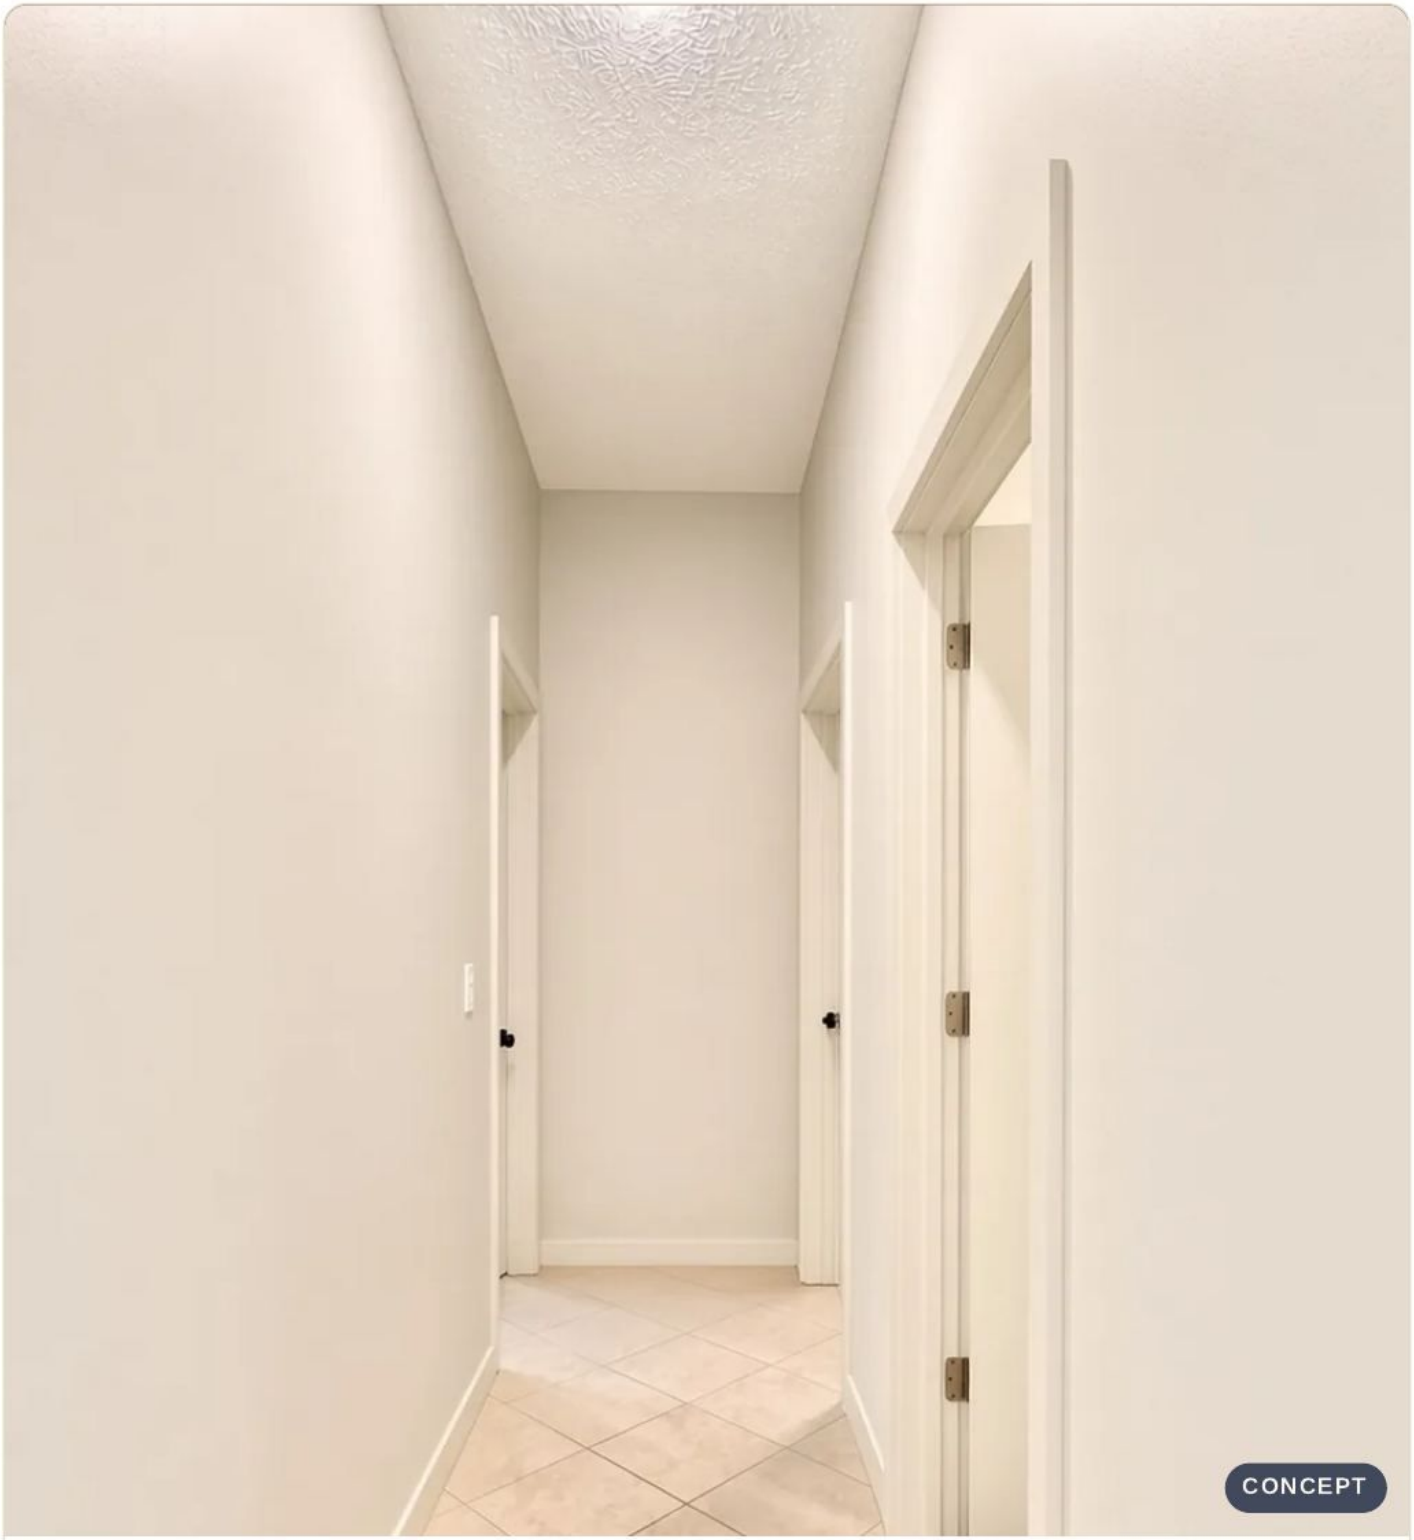

Powder room

Lower walkout

The same palette continues downstairs: Shoji White on the blue, green, and gray walls, Alabaster on the wood paneling, stairs, doors, and trim, and Edgecomb Gray on the lower kitchen cabinet.

Lower family room and stair

Lower hallway

Lower bedroom

Bedroom with paneled wall

Lower kitchen

The unfinished mechanical room in the listing photos is left as-is and is not part of the paint scope.

Exterior concept

A country-modern look: a light Alabaster body, black window and door trim, and dark charcoal railings. The house siding is vinyl, so light body colors such as Alabaster are the safe choice. Three roof options are shown on the main elevation so you can compare them side by side.

Alabaster

Sherwin-Williams SW 7008

Vinyl siding on the house, garage wing, and shed. Soft creamy off-white.

Approx. hex #EDEAE0

Tricorn Black

Sherwin-Williams SW 6258

Fascia, soffit, window and door trim, gutters, downspouts, and the walkout door.

Approx. hex #2F2F2F · Semi-gloss on trim

Iron Ore

Sherwin-Williams SW 7069

Deck railings, stair railings, and deck posts. Deck floor boards stay the existing wood.

Approx. hex #434341

Roof options

Keep · shingle · metal

Keep the existing 2019 shingles, or replace them with charcoal architectural shingles or dark standing-seam metal.

See the three versions below

Vinyl-safe paint

The siding is vinyl. Light colors such as Alabaster are generally safe to use on vinyl. Darker body colors can warp or buckle vinyl unless they are mixed in a vinyl-safe formula, such as Sherwin-Williams VinylSafe. Regular Iron Ore (SW 7069) and Tricorn Black (SW 6258) are not VinylSafe body colors; do not use them on the siding itself. They are fine on wood or metal trim, doors, gutters, and railings.

Roof options on the main elevation

Same paint scheme on all three. The first keeps the existing roof. The second is new charcoal architectural shingles. The third is a high-end dark standing-seam metal roof.

Each photo shows the new colors. Drag any photo to the right to see the original listing photo.

Paint only, existing roof kept

Paint plus a new charcoal shingle roof

Paint plus a dark standing-seam metal roof

Other exterior views

These open on the concept with a new charcoal shingle roof, except the walkout and deck, where little or no roof is in the frame. Drag to see the original.

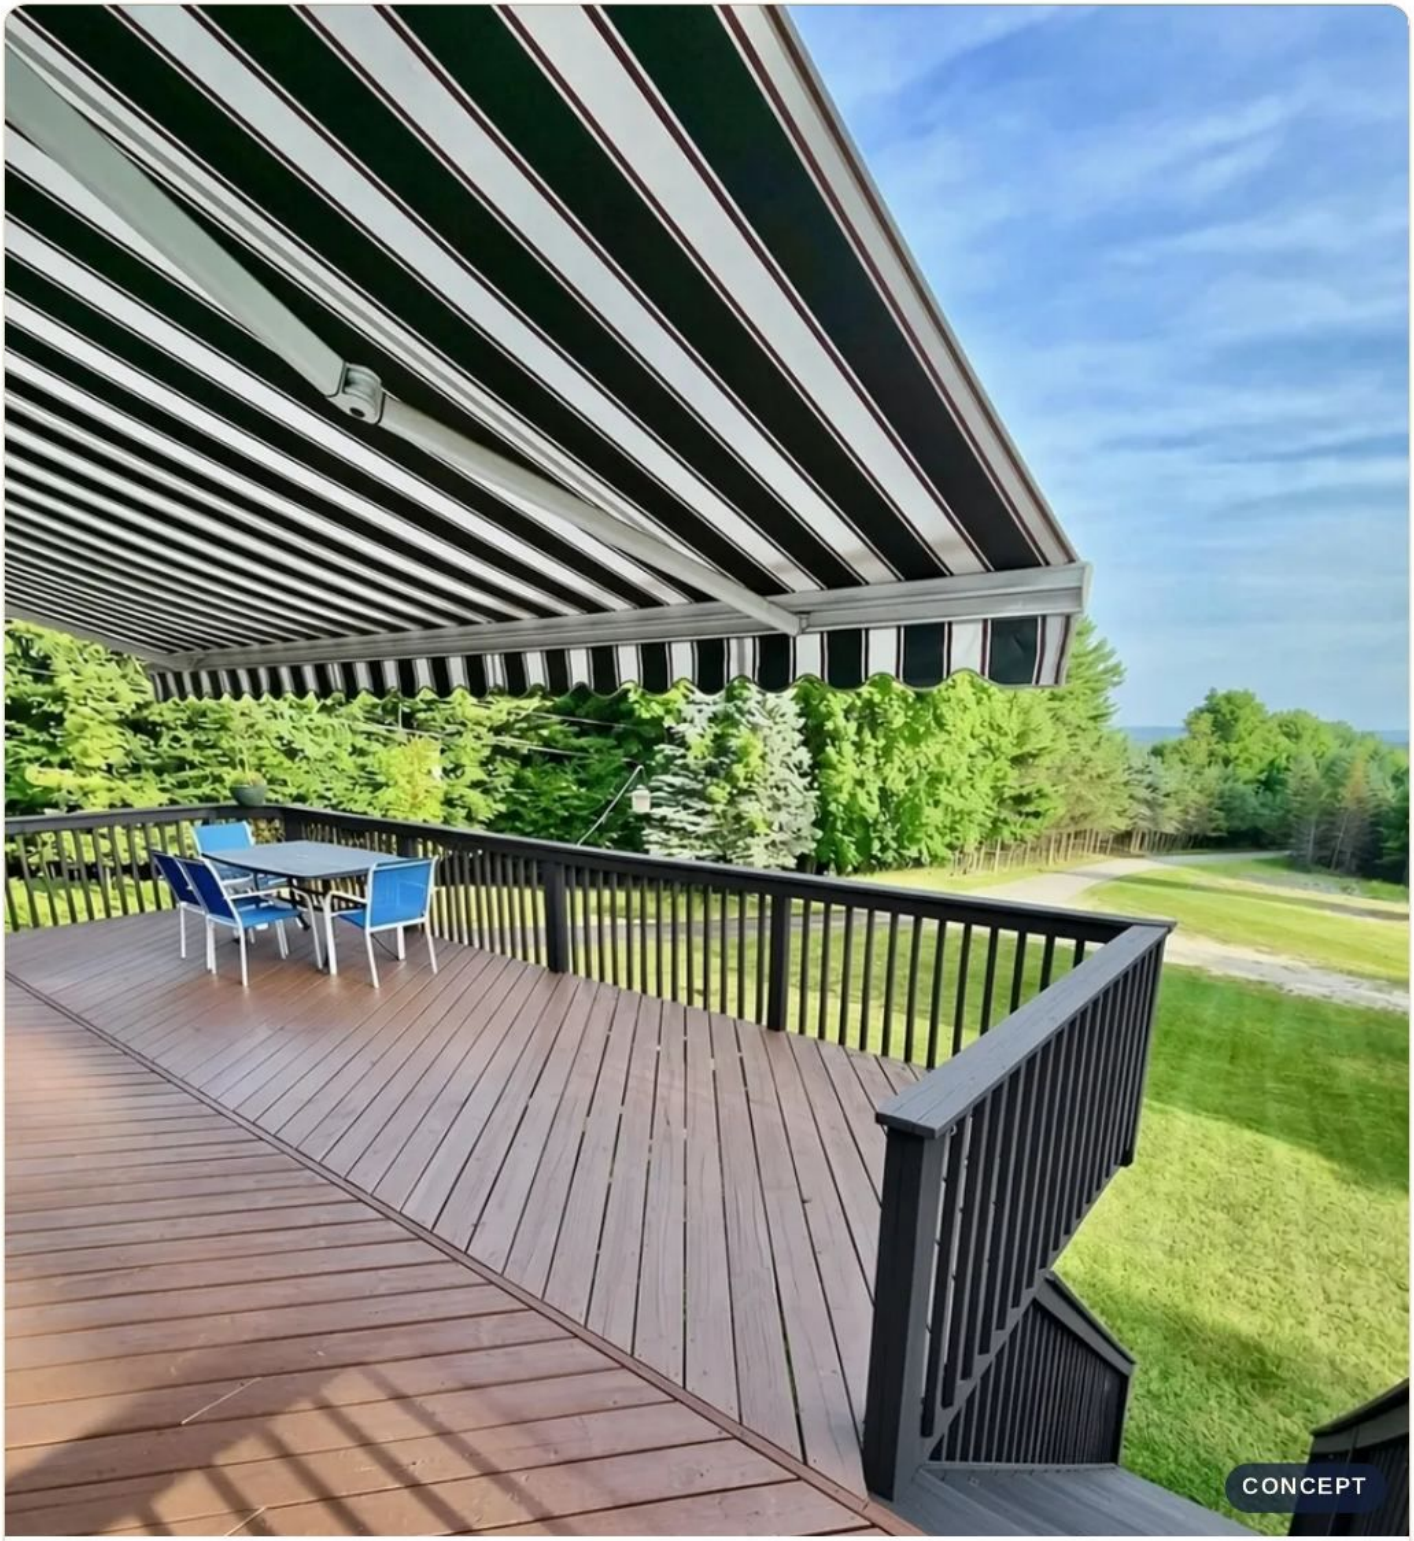

Rear elevation and yard shed, charcoal shingle roof

Patio side, charcoal shingle roof

Lower walkout under the deck

Deck railings in Iron Ore

Elk Lake views

These listing views are unchanged. They are included for setting only.

Elk Lake view

Lake view, fall color

Summer lake view

Evening light over the lake

Outbuildings

The two pole barns — one 30×40 and one 35×40 — are shown in the same country-modern scheme as the house: an Alabaster-light body, Tricorn Black trim and doors, and a dark metal roof. The smaller shed in the rear-yard photo above is painted to match.

Pole barn, light body and black trim

Second pole barn, light body and black doors

Approximate professional costs

These are rough estimates for professional work in Northern Michigan in 2026, not bids. Actual quotes will vary with prep, access, the amount of existing woodwork, and the contractor. Get at least two local bids before budgeting.

Interior painting — all three levels

Based on about 3,120 finished square feet, 6 bedrooms, and 3.1 baths. Wood ceilings and beams are excluded, because they stay natural in this concept. Already-white drywall, popcorn, and drop ceilings are also excluded from the base scope.

SCOPE	WHAT'S INCLUDED	LOW	HIGH
Interior walls	Whole interior, about 3,120 finished square feet on all three levels, covering existing salmon, yellow, beige, gray, blue, and	$6,500	$13,000

SCOPE	WHAT'S INCLUDED	LOW	HIGH
	green walls in eggshell or matte Shoji White		
Trim, doors, railings, and wall paneling	Baseboards, casings, interior doors, closet doors, stair and loft railings, and extensive wood wall tongue-and-groove or paneling, in semi-gloss Alabaster. This is a large part of the job in this house. Wood ceilings and beams are not included.	$10,000	$22,000
Cabinets and vanities	Main kitchen cabinets and island, laundry cabinets, primary vanity and linen cabinet, powder vanity, and the lower-kitchen cabinet, in satin urethane enamel Edgecomb Gray. Assumes degreasing, sanding, and a stain-blocking primer on the existing oak.	$5,500	$12,000
Optional: drywall ceiling refresh	Repaint already-white popcorn, smooth, or drop ceilings where needed. Not required for the look in the photos.	$2,000	$5,000
Interior painting total	**Walls, trim/paneling, and cabinets as scoped above. Optional ceiling refresh not included in this total.**	**$22,000**	**$47,000**

Exterior paint, roofs, and barns

SCOPE	WHAT'S INCLUDED	LOW	HIGH
House exterior painting	Vinyl siding in Alabaster (vinyl-safe product), trim, fascia, soffit, gutters, the walkout door, and deck railings and posts, on a 3,120 sf 2-story house with a walkout and wraparound deck. Deck floor boards are not included.	$12,000	$28,000
Two pole barns plus the yard shed	Repaint or re-coat metal siding, trim, and doors in the matching light-body, black-trim scheme, including the smaller shed in the rear yard.	$6,000	$16,000
Keep the existing roof	The house roof, and one barn roof, were replaced in 2019. Keeping them is the low-cost option and is the first exterior concept above.	$0	$0
New architectural shingle roof	Tear-off and replace the house roof with dark charcoal-black architectural shingles. Multiple planes and the 2-story form are in the range. Barn roofs not included.	$18,000	$40,000

SCOPE	WHAT'S INCLUDED	LOW	HIGH
Optional: standing-seam metal roof	Dark metal instead of shingles on the house. A larger upgrade, shown as the high-end option. Barn roofs not included.	$40,000	$85,000
Paint only (keep existing roof)	**House and outbuilding painting, no roof work.**	**$18,000**	**$44,000**
Paint + new shingle roof	**House and outbuilding painting plus a dark architectural shingle reroof on the house. Metal roof not included in this total.**	**$36,000**	**$84,000**

Assumptions: professional labor and materials in Northern Michigan in 2026; vinyl siding painted with a vinyl-safe product; stained oak cabinets need a stain-blocking primer; the vaulted living room and upper loft will likely need scaffolding or lifts for high walls, trim, and railings; metal barn coatings may be a specialized product, not standard house paint. The 2019 house roof may still have remaining warranty value, which is a reason to consider keeping it. These ranges are rough visualizations, not bids.
